

## **Insurance Estimate of Benefits**

**As a service to our patients we will be happy to contact your insurance company for review of your insurance for an “Estimate of Benefits” or EOB. This may help to see what coverage your insurance policy may provide for the brace and services. You need to do the following:**

- **Download and Print the “Pectus Information Profile” then fax it to our office. Our Fax # is: 973-488-7185**
- **Fax or Scan and email a copy of the front and back of your Insurance Card (front and back) to our office. Our email address is: Reimbursement@PectusServices.com**

**Alisa our insurance and reimbursement coordinator will contact you with the findings. This is not a guarantee of coverage by your insurance company.**

**You can also call your insurance company on your own as well and ask what your policy covers regarding our brace and services.**

**The brace would come under what is called ‘DME’ Durable Medical Equipment. Ask your insurance company if your policy covers this.**

**Feel Free to contact our office with any further questions.**
